

## EDITORIAL COMMENT.

Hopkinsville is pulling off two big things today—the Ferrell reunion and the closing of the Forbes pony contest.

Whether he is elected President or not, Judge Hughes has already qualified himself for admission to Teddy's Ananias Club.

Candidate Hughes is starting his campaign on a "view with alarm" basis. On the other hand President Wilson will "hail with pleasure."

The Henderson Gleaner says petitions will soon be in circulation calling for an election to be held in that city next November to determine if the voters are in favor of a commission form of government for Henderson.

Many newspaper consolidations are taking place in Michigan, due to the increased cost of running. Kalamazoo now has only one paper for the first time in 70 years. At Bay City, Muskegon and Lansing, consolidations have brought about the same conditions.

The expected thing has happened at last. With hundreds of automobiles traveling the narrow streets of Hopkinsville at all hours, some of them at a high rate of speed and many of them recklessly driven, it was to be expected that somebody would be killed or injured sooner or later. It is not too late to save other lives, by a strict enforcement of existing laws and by passing other laws prohibiting the driving of cars, by persons not qualified to do so.

Whether or not the day of August 6th was legally past at 9:30 o'clock that night, will decide whether Judge Bush's successor will be elected this fall or next fall. If Judge Hanbery had lived three hours longer, there would have been no doubt. The election begins at 6 a. m. Nov. 7 and counting days and nights to the hour, Aug. 7 at 6 a. m. would be three months before the election. But the only hours left of the preceding day were in the night, after the day had passed. The wise ones will have to pass on the question raised.

On the third page of this issue of the Kentuckian, the Ferrell's Boys and the public generally will find some interesting programs of forty years ago, when the closing exercises of Ferrell's High School were held at old Mozart Hall, where Hotel Latham now stands, and there was a grand display of fervid oratory. Forty years is a considerable stretch of time, but a good many of the participants in the exercises of those years will be on the platform to-night and some of them will make the same speeches made then. The program to-night will be the most unique entertainment ever given in Hopkinsville.

## BOOSTERS FOR BIG ROCK

R. E. Cooper Will Head a Delegation of Road Advocates.

A boosters' meeting for the trip to Big Rock to boost good roads was held at the H. B. M. A. last night. Secretary John Richards and President R. E. Cooper, of the Christian County Good Roads association, have been working up the interest in the trip. It seems now that Hopkinsville will make a good showing today and will help the Stewart county people decide the issue correctly.

It was not known just how many would go when the Kentuckian went to press. Judge Walter Knight, R. E. Cooper and Colonel W. R. Howell are down as chief orators of the occasion.

## CHILD RUN OVER BY AUTO

Injuries May Be Fatal As the Little Girl Was Rendered Unconscious.

CAR OF A. A. FURGERSON

Was Traveling At a High Rate of Speed On East Seventh Street.

Nellie May Charlton, aged 12, daughter of Albert M. Charlton, was probably fatally injured Thursday afternoon at about six o'clock, when she was struck by an automobile driven by A. A. Furgerson. The accident occurred just in front of the child's home at Seventh and Railroad streets, as she started across the street.

The machine, according to eye witnesses, was going rapidly for city travel. The machine struck the girl and threw her heavily and ran over her.

The most serious injury she sustained was a complicated fracture of the skull at the base of the brain.

Her physicians state her condition is critical. Furgerson did not stop his car for some distance and later surrendered to the police, who held him under bond to answer to the charge of assault.

Until recently he was a saloon-keeper doing business at 11 North Virginia street.

Paul Winn was sitting in front of his office in plain view of the accident. He tells the following story:

"The child was playing with her little sister and another child on the opposite side of the street. She started across the street after one automobile had passed. Mr. Furgerson's car was coming about seventy-five feet behind the first car at a high rate of speed. He did not sound a whistle or horn. There were no other vehicles near at the time. The child was within three feet of the curb when the car struck her. It hit her fairly with the front of the car and ran over her, both wheels on the right hand side passing over her body. She was knocked unconscious, cut, lacerated and bruised and thrown against the curb. The car did not make any attempt to slow up or stop but went on. I picked the girl up and carried her into the house. Mr. George Clark, who also saw the accident, saw that I had ran to pick up the child, and stopped the car."

Mr. Clark was on his way home and was crossing the railroad, about twenty feet from the accident when it occurred. He tells virtually the same story of the tragic occurrence as Mr. Winn.

The car that passed in front was that of T. M. Jones.

The child was doing satisfactorily yesterday although the doctors consider her injuries very serious and painful. The skull is fractured on the base near the right ear.

Mr. Furgerson, who was arrested by officers Cliborne and Hawkins Thursday night on a charge of malicious assault, was held on bond until Tuesday morning at 9 o'clock, when examining trial before City Judge Hunter Wood, Jr., will be held.

## COME BACK TO SCENES OF FORTY YEARS AGO

From Many States The Ferrell Boys Have Come To Meet Their Old School Mates.

## BARBECUE AT THE LAKE TODAY

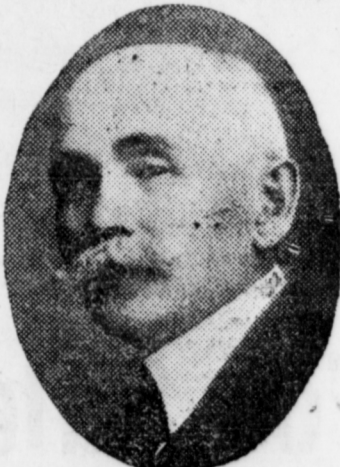

To-night There Will Be an Oratorical Contest By The "Boys", Many Making Their Speeches of Long Ago.

Under favorable weather conditions this time—except a little too much caloric—the second annual reunion of Ferrell's Boys began yesterday and will continue until late to-night.

CHAS. M. MEACHAM, President.

Most of the Boys on arrival reported at the office of the President of the Association and were given buttons and identification cards as last year. The various local committees were busy as bees meeting trains and giving a cordial greeting to the visitors from other states.

GEO. E. GARY, Secretary.

The program for today, with some changes made necessary, will be found on another page.

The barbecue at Lake Tandy is for the Ferrell Boys only. Members are not even privileged to bring members of their own families. It is

G. H. CHAMPLIN, Asst. Sec.

strictly a private affair, where the Boys can go off to themselves to spend the day.

The entertainment at the Tabernacle is free to everybody.

The first meeting was held at the Court House yesterday at 2 o'clock and the roll call was the first order of business. The program for this meeting was informal until three o'clock, when Col. M. H. Crump conducted a round table for an hour.

Eighty members, half of them from a distance, were present. Several happy speeches were made.

The reception at Virginia Park last night was largely attended and there was an informal program of speeches

made.

### Early Birds.

The early birds began to come home to roost Thursday morning.

The first arrival from a distance was Jacob H. Cohn, of Lawrence, Kansas, 1876. He was promptly taken in hand by his cousin, Mose Elb, who confided to his friends, "Jake is one of my cousins that I'm proud of." He will live on the fat of the land while his capitalist relative is looking after his welfare.

Thursday morning Wallace Kelly, first honor man of 1891 and 1892, now of Houston, Texas, also came in and is with his parents, Mr. and Mrs. Walter Kelly. He was not here last year and all the boys will give him the glad hand.

Lawson B. Flack, 1901, now in the service of his country at Ft. Thomas, came home on a furlough. The boys were regretting his absence, since he proved one of the most popular boys in the reunion last year, and his unexpected arrival caused much pleasure.

Hon. Chas. M. Meacham, Hopkinsville, Ky.

Imperative business interfered with my cherished plan to be with you Friday; a large meeting of agricultural agents and students in session at the college made it impossible to leave. Please express my heartfelt appreciation of the kind remembrance of friendship in your invitation. I send the old boys my affectionate greetings in the name of a very dear friend of the days of auld lang syne.

Russians Ford Zlota Lipa River in Galicia and Threaten Important Railroad.

## BAD WEATHER IN WEST

Italians Continue to Push Forward in Isonzo and are East of Gorizia.

London, Aug. 11.—Although bad weather is hampering the British and French maneuvers in the west, both the Italians and Russians are keeping up their strong offensives against the Teutonic allies, respectively in Austria and Galicia—and at last reports had made additional gains.

On the Isonzo front the Italians have continued to throw their forces across the river and have fought their way to the east of the captured city of Gorizia. The prisoner toll is placed at 20,000.

In addition southwest of Gorizia they have taken strong Austrian entrenchments near Monte San Michele and Monte San Martino and also occupied the town of Bischini, giving them a freer hand for their operations in the region of the Doberdo plateau and southward toward the Monfalcone sector. Large numbers of prisoners were taken in the fighting.

Owing to the inclement weather in France, military activity has been confined principally in bombardments which were somewhat heavy north of the Somme and in Thiaumont work near Verdun. An attempted German advance against the British line south of Martinpuich was put down by the trench mortars and machine guns, according to London.

Fierce fighting is still going on between the Turks and Russians on the Mush-Bitlis front in Turkish Armenia.

A squadron of twenty-one Austrian aeroplanes has dropped a large number of bombs on Venice, causing numerous fires in the historic city.

Col. John T. Evans, of Guthrie, is sick and writes of the poignant regret it causes him to be unable to come. He sends his love to all of the old boys, and especially Jake Cohn.

## POULTRY AT THE FAIR

One of The Attractive Departments That is Sure to Receive Attention.

J. W. STOWE IN CHARGE

Prizes of \$5 Will Be Given on Best Pair of Many Breeds.

No department of the Pennyroyal Fair, which begins Tuesday, August 29, has been worked up better or will prove a more attractive and popular feature than the Poultry Show. J. W. Stowe, one of the best poultry men in the county, has this department under his personal supervision and will spare no labor or expense to make a display of fancy fowls more than suit all the lovers of the feathered species in this section.

No barriers will be placed on the entries and the entries are not confined to the county or state. By virtue of this open door to the coops some of the best fowls in the country will be displayed at the fair. However, in order to give the poultry raisers of this county an opportunity to decide this question of who is raising the best fowls, a Christian county special series of contests will be held. Prizes of \$5 for each pair will be given for the best couple of fowls in the following classes:

Barred Plymouth Rocks, White Plymouth Rocks, Partridge Plymouth Rocks, White Wyandottes, Golden Wyandottes, S. C. Rhode Island Reds, R. C. Rhode Island Reds, White Orpingtons, Black Orpingtons, Buff Orpingtons, White Leghorns, Brown Leghorns, Buff Leghorns, Light Brahma, Dark Brahma, Buff Cochins, Partridge Cochins, Dark Cornish, Anconas, Campine, Best pair Bantams.

The chicken family will come in for most attention in the Poultry Department, but the other members of the fowl race will not be entirely left out. Quite to the contrary they have come in for generous attention in the lists of awards. Turkeys, geese and ducks will be attended to in the contests for excellence and the same award will be given.

One of the most important awards of the fair and one that will be coveted by all the poultry raisers who enter fowls in the coops, will be the Judge's Cup. This award is given by Judge J. T. Milligan, and will consist of a handsome silver cup with named engraved, given to the best bird entered in the entire show in any class.

## MAY BE A CONTEST

Other Candidates May Try Issues With Judge C. H. Bush.

Nothing is likely to develop in the circuit judges' race until a decision is rendered on the issue.

Rainey T. Wells, of Calloway, is said to be a prospective candidate and Jas. B. Allensworth, of this county, is also seriously considering the question of running.

The governing authorities of the Democratic party are the four county chairmen. Lucian J. Harris, of this county, is the chairman of the district committee, by reason of having the largest vote. Christian cast 2,883 votes for Stanley and Calloway 2,125.

The committee will not be called together until it is known whether special action will have to be taken or the nomination be made next August. Just how a decision will be arrived at, was not known yesterday.

The City Commissioners of Lexington awarded the contract for the construction of a sewerage disposal plant. It will cost \$207,000.

The senate this week passed the bill which will prevent interstate commerce of products of child labor by a vote of 52 to 12. The measure has already passed the house. It was brought to a vote in the senate upon insistence of President Wilson after the democratic caucus once decided to defer consideration.

## Clean Hands.

Disease germs lead a hand to mouth existence. If the human race would learn to keep the unwashed hand away from the mouth many human diseases would be greatly diminished. We handle infectious matter more or less constantly and we continually carry the hands to the mouth. If the hand has recently been in contact with infectious matter the germs of disease may in this way be introduced into the body. Many persons wet their fingers with saliva before counting money, turning the pages of a book, or performing similar acts. In this case the process is reversed, the infection being carried to the object handled, there to await carriage to the mouth of some other careless person. In view of these facts the U. S. Public Health Service has formulated the following simple rules of personal hygiene and recommends their adoption by every person in the United States.

## Unique Among Magazines

Probably Joe Mitchell Chapple knows personally more famous people than any other man in the world.

Other magazines have their place in fiction and fact, but the National Magazine is different. Every month for twenty years it has made a trip to Washington to obtain material for its "Affairs at Washington" department. You can hear him 12 times a year through the pages of the National Magazine. It is the only magazine that takes you over wide stretches of territory. It gets you down suddenly face to face with a big fact. It keeps close to human impulses. People usually like it. It is "booster" life at every angle. It is not a palliative, but a blood and iron tonic to every person—man, woman, child. No matter where you live, the National will do you good. Write today for a copy and send no money until you have read the magazine and know you like it. For \$1.00 every four months, you can become a regular subscriber to the National Magazine. ## CARE OF CREAM IN SUMMER

Few Simple Rules Given Which Should Be Followed—Dirt Always Carries Bad Flavors.

(By W. B. COMBS, Missouri College of Agriculture.)

During the hot days of summer the farmer who is selling cream to the creamery finds it a problem to keep his cream in the proper condition. However, there are but a few simple rules which should be followed, that would result in better cream. First of all these is cleanliness. Dirt, remember, carries bad flavors. If the barn or its surroundings and cows are dirty it will result in poor milk; poor milk results in poor cream; poor cream results in poor butter.

Immediately after separating, the cream should be cooled down to at least 50 degrees Fahrenheit. Warm cream should never be poured upon cold as the temperature of the lot is raised and bad flavors may result. It is essential that the cream be stirred frequently to insure uniform ripening. If the cream is left undisturbed, the fat rises the same way as it does in milk. As a result the cream is full of curd particles or it becomes "lumpy."

Never put cream in a rusty or battered can and always remember that milk and cream have that property of absorbing bad flavors.

## CAREFUL ATTENTION TO COW

Animal Brings in Regular Returns in Dairy Products—No Farmer Can Afford to Neglect Her.

Cows require regular and careful attention. There is work in keeping cows and giving them proper attention. But they bring in regular returns in dairy products and cash and no farmer can afford to neglect cows.

What would it mean to individual farmers and the country if every home had as many cows as it requires to supply the table with milk and butter? Perhaps none of us realize what it would mean. It would certainly give more cash from the animals and crops

raised and be the means of greater profits.

Doubtless it would mean more than this. It would give more wholesome, nutritious foods and enable parents to rear healthier, stronger, more efficient children. Isn't this worth striving for?

## FEEDING SILAGE IN SUMMER

Farmer Must Decide for Himself Whether Practice Is Cheaper Than Letting Cows on Pasture.

Every farmer must decide for himself whether it is cheaper or more profitable to feed silage during the summer or let the cows get most of their feed from the pastures. If you have land suitable for no other purpose than raising grass it would not pay to let it lie idle, but if your farm consists largely of tillable land the situation is quite different. It costs time and money to raise corn and put it in the silo and feed it out, but on many farms it will pay to rely mainly on the summer silo for the dairy herd.

## PROF. W. E. GRAY

**Will Board Girls Who Wish to Attend the City High School.**

Hopkinsville, always ready to cooperate with the county, and always striving to better the conditions of the whole county, has through her school board once more shown her zeal for civic improvement by placing the unequalled advantages of the city's splendid school system free to the boys and girls of the county.

It is already well known that by an agreement with the County Board of Education, every boy and girl in the county who finishes the common school course will be admitted to the High School without cost of tuition; and in order to place these advantages within easier reach of the people the School Board has arranged for the girls of the county who desire to enter either the High School or the grades, boarding facilities at a remarkably low cost. Prof. and Mrs. W. E. Gray have been given charge of the girls dormitory at Belmont school and they will board any girl desiring to enter the city schools at the exceedingly low price of \$3 per week.

This arrangement guarantees a comfortable and a safe home for the girls, and parents sending their children here for the school year need not feel any uneasiness for their safety.

## DISINFECT BY SEA WATER

Brine Treated With Electricity Will Produce a Strong Antiseptic, Is Claim.

The possibilities of manufacturing a strong disinfectant from sea water was a discovery made in the bacteriological department of the Liverpool University.

During a series of experiments in the electric treatment of milk, Frederick C. Lewis, assistant lecturer in the university, developed the idea of producing a strong antiseptic from sea water. This, according to the Liverpool Courier, was two years ago.

Since then all the disinfection and cleansing of cultures and slides in the bacteriological and pathological laboratories at the university have been done by an electric chemical apparatus which insures a powerful disinfectant from salt water.

The apparatus employed on the Aquitania is of course on a far larger scale than the one at the university. The principle, however, is precisely the same. There is an electrolytic cell, a reversing switch, and some ordinary insulating electric cable.

The cell stands upon a rubber mat, to insulate it, and is raised upon a low table, to enable the contents to be poured out easily. It is filled with sea water and an electric current is then turned on and a solution containing sodium hypochlorite, or available chlorine, will be obtained.

The solution is useful as a sterilizer of drinking water, and on the Aquitania it is added to the water in the swimming bath.

How many sticks go to the building of a crow's nest? None—because they are all carried.

## HOT WAVE NEARING END

Prolonged Period of Intense Heat to Be Broken, is Promise.

The prolonged period of intense heat in this section of the country is nearing its end, according to a special bulletin issued by the United States Weather Bureau. Cool weather may be expected in the Ohio Valley within forty-eight hours, according to the bulletin, which follows:

"The disturbance that is now passing over the Mississippi Valley will move eastward, and will be followed by a general change to cooler weather over the Middle Plains States and Upper Mississippi Valley within the next twenty-four to thirty-six hours, and the lower Ohio Valley and Upper Lake region within the next thirty-six to forty-eight hours. It is probable that this change to cooler weather will terminate the prolonged period of abnormal temperatures over the Middle West."

## Kentuckian Tries to End Life, Belief.

Cincinnati, O., Aug. 9.—Wilbur Smith, of Hopkinsville, Ky., said to be a member of the Kentucky National Guard, is in a serious condition at the General Hospital, following what is said to have been an attempt at suicide by drinking a portion of a bottle of poison in a Cincinnati cafe. Officers from Ft. Thomas, where the Kentucky militia is encamped, spent the greater portion of the night at the hospital in an effort to ascertain from Smith whether he is now a member or had been rejected from the guard.

## INSTITUTE BEGINS HERE MONDAY

Dr. McDougale Will Be The Principal Instructor on The Occasion.

The Christian County Teachers' Institute will begin Monday morning, August 14th, at 9 o'clock at the High School building.

Dr. E. C. McDougale, Dean of the Eastern Normal, will be the principal instructor during the week. Dr. McDougale is easily the foremost instructor in the State and Christian county is very fortunate in having him this year. He is conducting the institute at Cynthiana, Ky., this week and will reach here sometime Sunday.

In addition to Dr. McDougale, Miss Virgie Nourse, of this city, will give special lectures and demonstrations in primary reading and language work. On account of her experience and special training at Columbia University, she is exceptionally well prepared for this work.

Each day's program will be published in advance so that any who care may attend her demonstrations or any part of the institute in which they are interested.

The public is not only invited but urged to attend the teachers' institute.

## Operation Was a Failure.

A young married man, whose wife sometimes talks in her sleep, recently underwent an operation for the removal of his tonsils. His health has been benefited, but it is hard to overcome the habit of years and he still slumbers with his mouth open at times. The other night he awoke with a start and a gurgle in his throat. His wife, too, had been disturbed, although not enough to awaken her, so it was her subconscious self which spoke when she said irritably: "I don't see why when they are taking out the tonsils they don't cut out the snore, too."

## A Spy's Fate In 1777.

[Indianapolis News.]

A curious and unfamiliar page of American history shows that the treatment of the spy was as prompt and rigorous then as it is to-day among the powers of the great war. Every American schoolboy knows the fate of Major Andre, but few know of any others, with perhaps the exception of Nathan Hale, by the British as a spy. In the second year of our Revolutionary War General Israel Putnam caught a man lurking about his post at Peekskill, on the Hudson. A flag of truce came from Sir Henry Clinton, claiming the prisoner as Lieutenant Palmer, of the British service. The answer of the stout old General was brief and to the point:

Headquarters, 7th August, 1777.

Edmund Palmer, an officer in the enemy's service, was taken as a spy lurking within our lines. He has been tried as a spy, condemned as a spy, and shall be executed as a spy: and the flag is ordered to depart immediately.

Israel Putnam.

P. S.: He has, accordingly, been executed.

## NOT UP TO THE STANDARD

Follower of Lord Charles Beresford Had a Criticism to Make, and Made It Promptly.

Lord Beresford found supporters the other day when he declared that the war would be over much more quickly if the government would make all commodities intended for Germans absolute contraband, and would confiscate all enemy property in neutral ships.

His lordship is, as everyone knows, an Irishman, and he delights in telling stories of Irish wit that have come within his own personal experience.

When he put up for parliament for Waterford he encountered an Irish voter who was looking very glum and discontented.

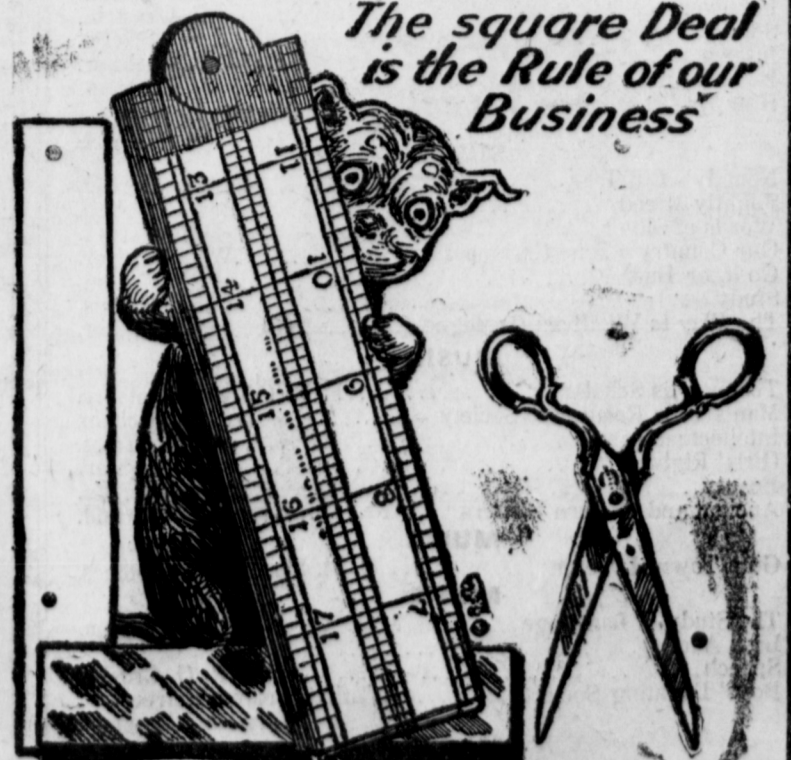

"Ah, ye're no man, Lord Charles!" remarked Paddy. "Sure ye're no man!"

"What do you mean?" asked his lordship in astonishment.

With the air of one who really disliked to find fault with a Beresford the voter replied: "Arrah, thin, the last time a Beresford stood for parliament it's up to the knees Oi was in blood an' whisky, and sorra a drop av ayther have Oi seen this toime!"—Pearson's Weekly.

## MIMIC WARFARE AT FT. THOMAS

Kentucky Guardsmen Will  
Stage Sham Invasion,  
To Help Recruiting.

Ft. Thomas, Ky., Aug. 11.—Much is hoped for recruiting from the adventure in store for the troops here next week. Plans are being rushed to completion for the sending of the entire brigade, one regiment at a time, to the rifle range, ten miles away, for an encampment of twenty-four or thirty-six hours each. The experience will be made as far as possible identical with the invasion of an enemy country. There will be an advance guard and a flank guard on the march, outposts and sentries and the other features of encampment in a territory subject to enemy invasion momentarily.

Brigade officers are hoping by this means and others to substitute here the training that the troops would have been getting on the border, had it been possible for them to go at the time of the President's call.

Recruiting and discharges both went forward today in the day's routine. Total discharges acted upon numbered seven and total recruits five.

Capt. George Armstrong, the post commandant and quartermaster and commissary has been ordered to report at Walter Reed hospital, Washington, for observation and treatment. He will be succeeded by Major Louis Garrard, who has been stationed at Fort McPherson, Atlanta, Ga. Major Garrard, it is understood, will arrive at Fort Thomas within the next few days.

### Injured Train Men.

The following train men were injured in the wreck at Slaughter'sville Wednesday morning:

James Riordan, engineer, 300 Cumberland avenue, Evansville. Will recover.

Cliff Barnett, fireman, Nashville. Recovery doubtful.

James Warren, 1603 East Franklin street, Evansville. Will recover.

Oscar Reed, colored porter. Slight injuries.

Mail Clerk Lee Harris, Madisonville, sprained ankle and bruises on head and shoulders.

Mail Clerk J. P. Waldman, Nashville, injured about head and body.

Mail Clerk A. L. Lassiter, Enfield, Ill., cut and bruised about head, shoulders and body.

H. E. Almon, Nashville, bruised head and body.

Barnett, the fireman, is considered the most seriously injured. He was unconscious when picked up at the wreck and did not regain consciousness until after his removal to St. Mary's hospital at Evansville. He was conscious Wednesday night and suffering intensely. He was suffering from general contusions, hardly a spot on his body having escaped being cut and bruised. He also was badly burned about the legs by escaping steam.

### Farm Horses Indispensable.

Today, when the tractor is coming into favor as a source of farm power, there are those wild-eyed extremists who would have us believe that the horse is bound to be abolished from the farm. This same propaganda was reached at the time when steam power replaced horse power for driving the old-time threshers. As a result of this recent awakening in favor of tractor power, horse breeders have become alarmed again at what seems to be a direct blow at their business.

Horses have been the farmers' helpers and companions when the stress of farm work was greatest. They have been a part of his big farm household in which family ties really exist, and it may be said that he has perhaps resented, for this reason mainly, the idea that he should go back on his friends and replace them with a mechanical substitute.

With all of our automobiles and tractors, no sane man should make the claim that there is no need of horses on the farm. There is a great amount of work which the horse can do well. For instance, in cultivating growing crops, like corn, where the work is light and where the natural instinct of the horse can be trained to follow the row and allow the farmer to attend strictly to the job of getting rid of weeds, no tractor of the present stage of development can be said to be in competition with the horse. For the small garden or truck patch the horse will always have first call.

### PURELY PERSONAL

Mr. and Mrs. John Cate, of Nashville, came over to the Cate-Cowherd wedding Wednesday. Mrs. Cate will remain through the week with her father, Dr. J. E. Oldham.

Mrs. L. T. Jenkins and daughters, Thelma and Rosa Stites, are visiting relatives in Trenton.

Mrs. Jouett Henry will go today to Fort Thomas to visit her husband, who is Colonel of the Third Regiment.

Curtis Park, of Richmond, who has been in the city for two weeks, will leave today for home.

Miss Lizzie Smithson has returned from a visit to friends at Greenville and Central City.

Mrs. Daniel H. Walker, and daughter, Miss Meta, of New Orleans, who had been visiting their cousin, Mr. G. H. Champlin, left last night for their home.

Mrs. Geo. Jake and children will return to Hopkinsville Friday after spending one month with the former's mother, Mrs. Mollie Durrenberger on the boat landing pike. \* \* Miss Bertha Denhardt has returned from a month's visit at Mt. Vernon, Ill., and Hopkinsville, Ky.—Bowling Green News.

Dr. J. F. Cooper, of Peoria, Ill., was here yesterday. He left for Bowling Green this morning and will return to Hopkinsville the first of next week to spend a few days with old friends.

Dr. Frank Stites, Jr., of Louisville, is visiting his parents, Dr. and Mrs. F. M. Stites.

### POLLYANNA.

The local W. C. T. U. will present Miss Novella Ramsey in "Pollyanna, the Glad Girl," next Tuesday night at the Christian church. Miss Ramsey is a fine reader and everybody should come out to hear her. There will also be a program of music by local talent.

### In Society.

#### Miss Frankel Entertains.

Miss Emelia Frankel elaborately entertained with a farewell dance in compliment to her attractive visitor of the past month, Miss Elizabeth Hildreth, who is returning to her home in New Jersey.

The decorating scheme was Japanese. Individual ices and cakes were served.

A large number of invitations were sent out. There were many guests present from out-of-town.

#### CATE-COWHERD NUPTIALS.

The wedding of Mr. George Cate and Miss Lucile Cowherd, of which a brief account occurred in Thursday's Kentuckian, was a brilliant affair. It took place at the home of the bride's parents, Mr. and Mrs. S. L. Cowherd, on the Nashville road, at 4:30 Wednesday afternoon. The nuptial rites were performed at fresco. The ceremony was pronounced by Dr. Calvin M. Thompson under an arch of ever greens and flowers.

Miss Daisy Grace played Mendelssohn's wedding march. During the ceremony William Thompson played a violin solo.

The bridal party was composed of Mr. Will Cate, best man; Miss Sarah Green, of Smith's Grove, maid of honor; Miss Verna Pool, of this city, bridesmaid; Miss Elizabeth Cate, of this city, and Miss Eugenia Richardson, of Smith's Grove, flower girls; Miss Elizabeth Rhea, ring bearer, and the bride and groom.

The young couple were the recipients of a great number of handsome presents, among which was an individual salt service of solid silver which has been in the groom's family for four generations and which dates back to before the Revolutionary war, and other articles of family history.

Mr. and Mrs. Cate left over the L. & N. for a visit of a few days to Mam-

## REVIEWS HUGHES' LABOR DECISIONS

Gompers, in Statement, Shows  
Candidate Took Extreme  
Stand for Injunctions.

Washington, Aug. 11.—Democratic party managers here gave out a letter from President Samuel Gompers of the American Federation of Labor to Thomas H. Hughes, the republican presidential nominee, in Supreme Court cases involving the interests of labor, particularly the Danbury hatters' case.

Mr. Gompers' letter reviews the Danbury hatters' case which resulted in a unanimous decision of the supreme court, in which former Justice Hughes concurred, holding the hatters of Danbury must individually pay D. E. Loewe and company some \$300,000 damages under the Sherman law for the celebrated hatters' boycott. It also referred to the court's decision holding unconstitutional the Arizona anti-alien law. Former Justice Hughes wrote the opinion.

"In that decision," wrote Mr. Gompers, "Justice Hughes took the position that the injunctive process applies to personal relations. Mr. Hughes has taken an unequivocal position. He endorses the abuse of the writ of injunction against which wage earners have vigorously protested and which they have tried to correct by remedial legislation in order that they might enjoy the rights and opportunities of free citizens."

"The above is accurately the information which you asked and I take it will be of importance to you as well as to the working people and liberty loving citizens all over the country and enabling them to understand the mental attitude of Mr. Hughes who now is a candidate for the presidency of the United States."

## PIGEONS SELECT OWN MATES

Breeders Should Be Selected With Definite Object—Inbreeding Is Not Desirable.

Pigeons usually mate in pairs and remain constant through life, although the mating may be changed if desired. Unmated pigeons, especially males in the loft, are a source of much trouble, and usually prevent

Splendid Breeding Pair.

profitable results. Pigeons are usually mated at from five to nine months of age. There are two methods of mating, natural and forced. Under natural mating the pigeons usually are allowed to select their own mates, which is indicated by the male billing and driving the female. Experienced breeders, however, are occasionally deceived by their actions in selecting sex. In forced mating, as in natural mating, the breeders should be selected with a definite object, using males strong in points in which the females are weak. It is sometimes advisable to break up the mating between old pigeons and young birds, although these pairs often give good results. Where matings produce undesirable qualities, it is necessary to remate or cull out the flock. Continued close inbreeding is not desirable and many try to avoid any inbreeding. Where pigeons are banded, the female on one foot and the male on the other, it is fairly easy to regulate inbreeding.

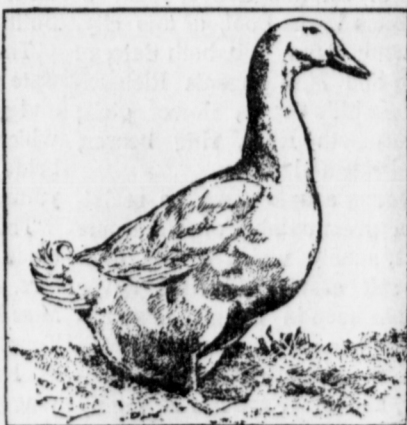

## MOST POPULAR MARKET DUCK

Pekin Is Favored for Marketing While Indian Runner Takes Lead for Egg Production.

Duck raising is one of the most profitable branches of the poultry business.

For market purposes alone the Pekin duck is popular. For eggs the Indian Runner takes the lead.

Ducks are never troubled with lice, neither do they have cholera or roup.

Pekin Duck.

They lay a large egg. These eggs have a very fine flavor.

You will find the eggs not as fertile if you let the ducks grow thin.

Give the ducklings plenty of air and stuff them with feed. Sprinkle sand over their feed as this will be a sure way of them getting as much as they need.

Watch that the ducks have suitable attention and regular feed. A few well cared for pays better than too many that are slighted.

## CHICKS RELISH GREEN FEED

Fresh Vegetables Should Be Supplied to Youngsters—Composition of Good Mash.

The little chicks must be supplied with a quantity of green feed or fresh vegetables after they are a few days old. A good rule would be to have one-third of the ration green feed, one-third cracked grains and one-third mash.

Ground oats, bran and middlings in equal parts, make a very good mash for chicks. There is nothing magic or medicinal about the prepared chick feeds.

Chicks that become injured, and especially if in a manner to become bloody, should be promptly removed from the brooder. Chicks are strongly cannibalistic if once started, and will quickly tear to pieces an injured chick if they once get a taste of the blood. Smear tar over any injured or bleeding spots.

BIOGRAPHICAL SKETCH NO. 109.

Judge C. H. Bush, the Newly  
Appointed Judge of the  
Third Judicial District.

JUDGE CHAS. H. BUSH.

When the question of filling the recent vacancy in the office of circuit judge of the third judicial district came up for speedy consideration, public opinion at once pointed to Judge Chas. H. Bush as the logical man for the position. Other candidates of excellent qualifications were available, but Judge Bush was at once recognized as the most suitable appointee from every standpoint and this opinion was promptly concurred in by Gov. Stanley, who acted without delay in making the appointment. Judge Bush was notified by wire that his commission had been sent to Murray Wednesday afternoon and he was directed to report there for duty at once. He left at 11:10 o'clock Thursday and opened court there yesterday morning.

Chas. H. Bush was born near Lafayette, Ky., over the Tennessee side of the state line, Oct. 28, 1856, and is not quite 60 years of age. For 35 years he has practiced law in Hopkinsville with increasing success and for many years has been at the head of the bar.

His early education was acquired in the common schools and supplemented by a course in Bethany College, West Virginia. He read law in the office of Henry C. Burnett in Paducah and was admitted to the bar in 1878 and began practice in Paducah. In 1881 he removed to Hopkinsville and has been here ever since.

Unlike many young lawyers, Judge Bush avoided offices, preferring to devote himself assiduously to the study of law in all of its branches.

The only office he ever filled was the appointive position of commissioner of the Western Asylum for the Insane under the old law. He has, however, served frequently as a special judge and is not without experience on the bench.

In 1903 Judge Bush was a candidate for circuit judge, entering late in the contest after many of his friends were committed, and was defeated by only 73 votes in a vote of 7,000.

As a general practitioner he has been unusually successful, but as a jury lawyer his best work at the bar has been done. An effective pleader and a close observer of all technical points of law, his great knowledge of the law has made him much sought after as an advocate and he has been on one side or the other of most of the important cases here many years. His wide acquaintance and great popularity with the people of his own county and other counties of the district make him a strong candidate in the race for the elective portion of the term of four or five years, as may be decided.

Judge Bush has been twice married and is a widower for the second time, his last wife having died last spring. He has four daughters, Mrs. Franklin, of California; Mrs. J. W. F. Williams, of Lafayette, and Misses Jennie and Florence Bush, who live with their father in the family home on South Main street.

He is a member of and an officer in the First Christian church and is teacher of the Men's Bible Class of more than a hundred members. His knowledge of the Bible is fully equal to his knowledge of the law and his lectures on Sunday mornings have made him famous as a Bible student. In accepting the honor conferred upon him, Judge Bush has let his friends know that he will be a candidate before the people, whether the contest is this year or next year.

#### He Got It.

Since the death of Judge Hanbery it is now supposed that Hon. Chas. H. Bush, of Hopkinsville, may be appointed to succeed him.

Judge Bush is an able lawyer and a popular gentleman and public sentiment in that locality seems to favor his appointment.

The Messenger is for Judge Bush, and would like to see him appointed. —Mayfield Messenger.

#### Swatting the Fly.

A lonesome fly got in our house, One day not long ago.

The family armed itself at once And started for the foe.

Potato mashers, frying pans, And baseball bats we got,

And broomsticks, and we started in With might and main to swat.

We smashed three plate glass mirrors And tore down the chandelier;

We broke a \$40 vase And wrecked the jardiniere.

It seems a shame to stop and think, What father's got to buy;

We swatted everything we could, But didn't swat the fly.

Official—A man who draws a big salary and does little work.

### GROWTH OF AN INDUSTRY

General Review of Strawberry Culture From Small Beginning in Warren Co.

General Manager Hubert D. Graham, of the Warren County Strawberry Growers' Association, has given out the following information in regard to the history of this association:

The association was organized in 1903 when the shipping of Warren county strawberries began with only a handful of growers. There were thirty acres in berries, and during that season there were three or four cars shipped.

In 1909 there was a slight increase. Manager Graham took charge of the association in 1910 when the acreage was increased to one hundred and fifty acres, amounting to 16,000 crates, or forty cars, besides what was sold locally and shipped by express, which amounted to \$35,000.

In 1911 there were two hundred and fifty acres, or twenty-five thousand crates, filling fifty-six cars, and brought \$47,000.

In 1912 six hundred acres produced seventy-eight thousand crates, or one hundred and ninety-eight cars, and brought \$108,000.

In 1913 five hundred acres produced fifty-six thousand crates, or one hundred and fifty-nine cars, and brought \$116,000. There was a drouth that year and the acreage was less, which made fewer crates and cars, but brought eight thousand dollars more money.

In 1914 there were three hundred and seventy-five acres, producing seventy-five cars, or twenty-six thousand crates, and brought \$64,264. This year there was a severe drouth, which made less berries.

In 1915 five hundred acres produced fifty-seven thousand crates, or one hundred and fifty-six cars, and brought \$114,000.

In 1916 there were twelve hundred acres, producing one hundred and fifty-one thousand crates, filling three hundred and seventy cars, and bringing \$265,000.

In 1917, although the reports which Manager Graham has received are not complete, indications point to an increase in acreage to two thousand or twenty-five hundred, with a total of about seven hundred cars. —B. G. Messenger.

#### Moonlight Schools Begin Session.

Moonlight schools will begin their session on Monday evening, August 14th, throughout the State. The session will run for twenty-four evenings, four evenings each week, the hours being from seven to nine o'clock. The Kentucky Illiteracy Commission, Frankfort, Kentucky, furnishes instructions and equipment for such schools. Teachers are volunteering by the thousands and many

counties are setting a high aim. In Clay county every teacher has volunteered for the third successive year and they plan to teach one thousand to read and write before the session closes. Leslie and Cumberland counties have also sounded the slogan: "One thousand taught to read and write." McCreary plans to wipe out illiteracy this year and has the slogan: "No illiteracy in McCreary county in 1917." How many teachers in your county have volunteered? How many moonlight schools will there be? How many will be taught to read and write?

#### MOONLIGHT SCHOOL TEACHER WILL GO TO KENTUCKY.

The State prize for the best moonlight school will be a trip to Washington as guest of the Kentucky delegation in Congress next winter while Congress is in session. The Kentucky delegation in Congress is composed of Senator Ollie M. James, Senator J. C. W. Beckham, Congressman Swager Sherley, J. C. Cantrill, Harvey Helm, A. W. Barkley, A. V. Rouse, David H. Kincheloe, W. J. Fields, R. Y. Thomas, Ben Johnson, John W. Langley and Caleb Powers. High honors will be accorded the winning teacher by the delegation, including his presentation to the President. For principal points upon which the prize will be awarded, write Kentucky Illiteracy Commission, Frankfort.

#### Ice By The Yardstick.

In reply to City Attorney Pendleton Beckley's ultimatum to the ice dealers of Louisville that "meltage" from the factory to the consumer must be borne by the dealer, and that full weight must be placed in all ice boxes, the dealers have agreed to give full weights, and invite measurement of ice cakes, saying all is needed is a yardstick. Get the length, breadth and thickness—in inches. Multiply the length by the breadth and by the thickness, and divide the total, which is the number of cubic inches in the block of ice, by 30. The answer is the weight in pounds of the ice. For example: A cake of ice 10x10x10 inches contains 1,000 cubic inches. Using 30 as a divisor, the correct weight of the ice is 33 1-3 pounds.

#### Four Killed.

Three women and a child were killed and fourteen persons injured in an airship raid on the east coast of England and the southeast coast of Scotland.

#### West Virginia Cloudburst.

More than 150 lives are believed to have been lost and \$1,000,000 damage done by a cloudburst in the Cabin Creek valley of West Virginia.

#### CATTLE FOR SALE

A pair of fat, large, young work cattle.

### ORPHAN BRIGADE HERE SEPT. 27

So Decided at Louisville Wednesday—Capt. W. T. Ellis to Speak.

Survivors of the famous Orphan Brigade will gather at Hopkinsville, Ky., September 27-28 for their 1916 reunion. Former Congressman W. T. Ellis will be the chief speaker; and Gen. William B. Haldeman, life commander of the brigade, will preside at the various sessions.

It was unanimously decided to hold the coming reunion at the Christian county city when the Executive Committee of the brigade met yesterday morning in the offices of Gen. Haldeman, chairman. Invitation to meet in Hopkinsville was extended by Mrs. P. E. West, president of the Christian county branch of the United Daughters of the Confederacy. Programmes for the two days' reunion were discussed and reports of various committees were heard. The reunion will be the thirty-fourth.

Members of the committee who met yesterday were: Thomas D. Osborne, secretary; John B. Pirtle, I. P. Barnard, Elijah Basye, E. Polk Johnson, John H. Leathers and William A. Milton. Lieut. Col. Elijah Basye, one of the committee members, who served on the staff of Gen. Haldeman when the latter was division commander of the Kentucky Division, U. C. V., is now a Colonel, having been appointed to that rank by Gen. George P. Harrison, of Opelika, Ala., commander-in-chief of the U. C. V.—Courier-Journal.

The surviving members of the brigade when they meet in Hopkinsville will be the guests of the Ned Merriwether Camp U. C. V. A private reception for the visitors is being arranged and the Confederate Veterans here assisted by the Daughters of the Confederacy and the H. B. M. A. will royally entertain the visitors. A trip to the Jefferson Davis Memorial Park at Fairview will feature the visit here.

#### Pessimist Versus Optimist.

The Pessimist jeers—the Optimist cheers.

The Pessimist sees in his home the high cost of living—the Optimist, the joy of living.

Each new baby adds to the Pessimist's cares; it adds to the Optimist's pleasures.

In the big hay crop, the Pessimist sees toil; the Optimist sees opportunity.

The Pessimist groans at the smallness of a dollar; the Optimist wonders at its possibilities.

The Optimist sees the shadow of the passing cloud, and his mind is filled with a picture of grateful grain drinking from the coming shower.

The Pessimist only knows that for the time greater darkness prevails.

The Optimist is responsible for progress; the Pessimist is living in the dark ages attempting to trip ev-

ery step toward advancement.

The Pessimist is suspicious; the Optimist is credulous.

The Pessimist opposes; the Optimist investigates.

To the Pessimist every task is fraught with difficulties; to the Optimist, difficulties are but an invitation to win. Confidence, not discouragement, is the Optimist's lot. Discouragement, no confidence, is the lot of the Pessimist.

The Pessimist is self satisfied; the Optimist realizes external power.

The Pessimist looks for the faults in others and gloats over them; the Optimist sees the faults but understands the greater value of the virtues.

No man is wholly bad; the Optimist sees the good, even in the wicked.

No man is wholly good, but the Pessimist exaggerates even the errors of the most virtuous.

The Optimist sows kindness and good will, and reaps happiness and contentment.

The Pessimist sows bitterness and suspicion, and reaps discord and unhappiness.

Look for the good, and be an Optimist, for an Optimist can find some good even in a Pessimist.
